

Invitation to

# **TRAP UP**

**international conference**

# **”TRAP UP”- international conference / webinar about teaching deaf and hard of hearing pupils**

**Tuesday the 29th of August at 14.00-15.30 CET**

There will be live captioning in English and automatic translation to any requested language.

The partners of the ERASMUS+ project TRAP UP\* hereby invite you for the final conference presenting the results of the project. The conference will take place as a webinar.

**The aim of TRAP UP** is to create the best possible school life for pupils who are deaf or hard of hearing:

1. Develop new materials and concepts for professionals teaching deaf and hard of hearing pupils
2. Share knowledge and best practice transnationally within an area of high specialization with few active agents

During the project (2020 - 2023) four new products have been developed:

- Classroom design (D)
- E-learning course for teachers on inclusion (DK)
- Teaching material supporting differentiated teaching (SL)
- Distance teaching – technology and didactics (Fi)

All products are adapted into English, Danish, Finnish, German and Slovenian and gathered at a webplatform.

In addition there has been developed an adaption and implementation guide about how to adapt the products into other languages and cultures.

These new possibilities will be presented followed by a discussion between participants on how they can be used. Read more at <https://trapup.eu/>

**- Project partners:**

- Germany – Landesförderzentrum Hören und Kommunikation, Schleswig - [https://www.schleswig-holstein.de/DE/landesregierung/ministerien-behoerden/LFZHuK/lfzh\\_node.html](https://www.schleswig-holstein.de/DE/landesregierung/ministerien-behoerden/LFZHuK/lfzh_node.html)
- Finland – Valteri Centre for Learning and Consulting, Onerva, Jyväskylä - <http://www.valteri.fi/>
